ABOUT ME

Computer Engineering graduate with a GPA of 3.18/4.00 and hands-on experience in frontend development, software engineering, and artificial intelligence. Proficient in developing responsive web applications using React, TypeScript, JavaScript, HTML, CSS, and Tailwind CSS, with additional experience in Python, SQL, and PHP. Completed multiple internships in software development, web technologies, deep learning, and IT infrastructure, contributing to real-world projects in collaborative environments. Strong background in machine learning, deep learning, computer vision, and database management through academic and industry projects. Passionate about building scalable software solutions, solving complex problems, and continuously learning emerging technologies.

EDUCATION

Sivas Cumhuriyet University | 2022 - 2026

Bachelor's Degree in Computer Engineering GPA: 3.18/4.00

İBB Yavuz Sultan Anatolian Imam Hatip High School | 2018 - 2022 GPA: 80/100

T.R. MINISTRY OF INDUSTRY AND TECHNOLOGY | Jan 2026 - Apr 2026

National Technology Academy Artificial Intelligence Specialization Program

WORK EXPERIENCE

Deep Learning Intern

Sivas Cumhuriyet University | July 2025 - August 2025

- Developed image processing applications using Python and Keras.
- Carried out image enhancement studies with the U-Net architecture.
- Took part in model training, evaluation, and optimization processes.

Frontend Developer Intern

Qare Information Technologies | September 2025 - January 2026

- Developed responsive user interfaces using React and Tailwind CSS.
- Created modern web pages with HTML, CSS, and JavaScript.
- Performed bug fixing and performance improvements on existing interfaces.
- Actively participated in Git-based version control processes.
- Worked on improving user experience.

Software Developer Intern

Software Persona - TNC Group | January 2026 - February 2026

- Took part in SQL-based database applications.
- Contributed to the development of web applications.
- Used Figma in UI/UX design processes.
- Observed mobile application development processes.

TECHNICAL SKILLS

Programming Languages:

Java, Python, C#, JavaScript, TypeScript, SQL, PHP

Frontend:

React, HTML5, CSS3, Tailwind CSS

Artificial Intelligence:

Machine Learning, Deep Learning, CNN, Keras, OpenCV

Database:

MSSQL Server, MySQL

Tools:

Git, GitHub, VScode, IntelliJ IDEA, VMware, Linux, Figma, Canva, Microsoft office

PROJELER

- **Hospital Management System:**

Developed a responsive hospital management system containing doctor, patient, and administrator panels using PHP, HTML5, CSS3, JavaScript, and MySQL.

- **Smart Door Lock Unlocking with Face Recognition using Raspberry Pi:**

Developed a face recognition-based smart door access system using Python, OpenCV, and RaspberryPi.

- **Machine and Deep Learning Models:**

Trained the "Classification of Skin Diseases with Deep Learning and Transfer Learning Methods" model and wrote its academic paper. Developed an "Automobile Fuel Efficiency Prediction" model using machine learning algorithms.

- **Library Management Project:**

Developed a desktop database application with C# programming language and MSSQL Server integration.

- **Course Information System:**

Developed a responsive web application with React, TypeScript, and Tailwind CSS where students can access course information.

CERTIFICATIONS

- **Software Management Training** - Beykoz University Lifelong Learning Center (February 2026)
- **Project Writing Training** - Öğrencikariyeri (January 2026)
- **Software Internship Training Certificate** - Software Persona & TNC Group
- **Gemini Certified Educator** - Google for Education (November 2025)
- **Web Development with HTML5** - BTK Akademi (January 2025)
- **Artificial Intelligence Specialization Program Basic Training Certificate** - T.R. Ministry of Industry and Technology & National Technology Academy (December 2025)
